

STROKE AND ANEURYSM VIRTUAL MEETING

October 30, 2020 – January 30, 2021

LECTURES (On demand)

ANEURYSM MODULE 1

Thirty years from first aneurysms coiling. Memorabilia from 1990: from the beginning to nowadays *J. Moret*

When can we consider heal an aneurysm treated with coils, endovascular device and FD stent
W. Brinjikii

Fusiform and giant aneurysm: something new? *N. Kocer*

By pass and surgical treatment for fusiform and giant aneurysm. *M. Lawton*

ANEURYSM MODULE 2

Bifurcation aneurysm: EV treatment *S. Mangiafico*

Blister like aneurysm: EV acute treatment. *I. Saatci*

ANEURYSM MODULE 3

Should I treat small and medium URA? *H. Riina*

How I choose my stent for IC aneurysm *M. Aggour*

Novel Dual Antiplatelet Regimens in Acute Endovascular Interventions. *I. Linfante*

ANEURYSM MODULE 4

Intrasaccular Flow-Disrupters: WEB Device in the Treatment of Intracranial Aneurysms. *A. Biondi*

New devices with reduced thrombogenicity. Reality and lab data. *L. Valvassori*

Vessel wall imaging: myth o reality? *F. Causin*

ANEURYSM MODULE 5

Embolization Protocols, Angio-Suite Setup, Post-Treatments & Follow-Up. *E. Ciceri*

Surface modification for flow diversion and the treatment of ruptured aneurysms *A. Arthur*

ANEURYSM MODULE 6

Progress managing cerebral vasospasm. *F. Turjman*

World's First Robotic IC Aneurysm Embolization *V. Pereira*

Posterior circulation aneurysm: are they different? *G. Lanzino*

STROKE MODULE 1

Current diagnostic approach and international guidelines for ischemic stroke. *M. Castillo*

To treat or not to treat: this is the problem. *M. Goyal*

Radial and atypical approach for stroke treatment. *P. Jabbour*

STROKE MODULE 2

The impact of new devices on stroke treatment. *M. Muto*

Posterior circulation stroke treatment. *H. Riina*

Paediatric haemorrhagic stroke treatment. *G. Rodesh*

STROKE MODULE 3

Paediatric ischemic stroke treatment. *P. Muthusami*

Stroke in the field – Idealized networks and triage. *J. Hirsch*

Oxygen Carriers and other Neuroprotective Strategies in Acute Ischemic Stroke. I. [Linfante](#)

STROKE MODULE 4

Can we By pass conventional imaging in angio suite? *P. Jabbour*

AI in stroke treatment. *V. Pereira*

Tandem lesions: best way to treat them. *P. Machi*
